Copy 5 of 7

1 April 1957

Dear Dick:

With reference to your CCP #9 dated 14 March 1957, you are advised that a Project requirement does exist for the Oblique Position Indicator for the Model 73-B item. Your estimated unit price of \$1,250 per unit for 16 units with delivery by 15 May 1957 has been noted.

The Project (Schedule I) requires 10 units and you are hereby authorized to proceed on this requirement as a follow-up of my previous verbal authorization.

25X1A9a

I have discussed with [REDACTED] the need of FOG in this connection for their 6 Model 73-B items. Jim is of the opinion that they likewise will desire a unit for each of their B's. He has a copy of your proposal and will check it out with Sid and Russ. At such time as Sid approves this addition to Schedule II I will also give you a formal go-ahead on FOG's behalf.

Thanks,

George
